Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Rosen et al U.S. Patent 6,054,575 or Cotty, Jr. et al U.S. Patent 6,114,302.

Rosen disclosed a garment (40) having a laser source (14, 214, 314) (column 5, lines 50-55) attached thereto; the garment (40) is capable of being worn by a pet such as a monkey.

Cotty, Jr. et al disclosed a worker having a garment with a laser source (220) (column 3, lines 54-67) attached thereto, the garment is capable of being worn by an animal.

Allowable Subject Matter

Claims 13-16, and 18-20 are allowed.

Claims 3-12, 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

In response to applicant's argument that the recited is configured to worn by an animal, a recitation of the intended use of the claimed invention must result in a

structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
